

SafeNet/i

FOR IBM i

**WEB-CENTRAL
GUIDE**

Version 11

How to contact us

Direct all inquiries to:

Kisco Systems LLC
54 Danbury Rd
Suite 439
Ridgefield, CT 06877

Phone: (518) 897-5002
Email: support@kisco.com

Kisco Website: www.kisco.com/safenet
www.kisco.com/safenet/support

SafeNet/i Website: www.safeneti.com/safenet
SafeNet/i Support Website: www.safeneti.com/safenet/support

SafeNet/i Web-Central

Web-Central, which you can install as an optional part of **SafeNet/i**, is available at the Basic License level and above.

To obtain the most recent installation instructions, visit:

<http://www.kisco.com/safenet/support/wcinstall.htm>

Accessing SafeNet via Web-Central:

After installing Web-Central, you will access **SafeNet/i** via a URL:

<http://YourServerIP:9669/Safenet>

The default port is 9669.

Logging into Web-Central

You MUST log in to Web-Central using a SafeNet/i Administrator account. See SafeNet/i Menu SN7, Option 8 to create or view Administrator accounts.

Items to note while using Web-Central:

- Most icons are links to additional pages and maintenance programs
- Most pages and table cells have extensive hover-text that describes parameter usage and settings
- You can use your browser back button if necessary
- Web-Central utilizes color coding on some panels
 - ✓ Green – acceptable setting or result
 - ✓ Yellow – possible warning
 - ✓ Red – an error or intrusion event

For detailed information regarding **SafeNet/i** setup and maintenance, please refer to the manuals which can be found at this link: <http://www.kisco.com/safenet/sndload10.htm>

- *SafeNet/i Install and Upgrade Guide*
- *SafeNet/i Implementation Guide*
- *SafeNet/i Reference Guide*

Special Considerations:

You cannot use Web-Central for these **SafeNet/i** functions:

1. Install or remove **SafeNet/i**
2. Activate or de-activate **SafetNet/i**
3. Run the file purges
4. Run the Security Report or the Usage Reports
5. Start and/or stop the transaction logging job
6. DHCP Settings
7. Journaling reports or maintenance

You must use the standard **SafeNet/i** menu options for these functions.

SafeNet/i Web-Central Welcome Center

The *Welcome Center* is a dashboard that provides a snapshot of **SafeNet/i** status, activity and statistics.

You can easily find information regarding your version and license type at the *Welcome Center*. It even keeps track of your IBM i release level.

IBM i for Power Systems including AS/400, iSeries, and System i®

Keep in mind that most of the items listed are also links to the underlying maintenance screens.

The left navigation pane of the *Welcome Center* contains menus that provide links to SafeNet/i functions.

SafeNet/i Menus

Welcome Center link returns you to main dashboard

Open the *Executive Overview* > *Summary Report* link to see the Security Overview: Executive Report

The screenshot displays the SafeNet/i Web-Central interface. On the left is a navigation menu with the following items: Welcome Center, Executive Overview, Summary Report (highlighted in red), Major System Settings, Transaction Log, Modify User Authorizations, View Setup Reports, Special Administration Functions, and Support by Kisco. The main content area is titled "SafeNet/i Web-Central Enhancing System I Security!". It features a "Logout" link with a circular arrow icon. Below the title, it states "SAFELOGING subsystem is currently active" and displays a table of active jobs.

Job Name	User	Number	Type	Status
SN2FASENR	SAFENET	308546	BATCH	*ACTIVE
QWATCHER	SAFENET	324822	BATCH	*ACTIVE
SAFELOGING	SAFENET	324845	BATCH	*ACTIVE
ALERTWATCH	SAFENET	324846	PJ	*ACTIVE
QPADEV0003	SAFENET	324911	I	*ACTIVE

Below the table, the "SafeNet/i Configuration settings:" section lists the following status items:

- SafeNet/i is logging transactions to file only
- SafeNet/i is journaling all rule changes
- SafeNet/i allows incoming DDM commands
- SafeNet/i allows IBM folders to be read
- SafeNet/i does not allow updates to IBM folders
- SafeNet/i is checking LONG path names
- SafeNet/i is checking generic paths left-to-right
- SafeNet/i profile swapping is optional
- SafeNet/i is controlling DDM by User Profile
- SafeNet/i supports Group Profile rules
- SafeNet/i alert notification is active

At the bottom left of the interface, it says "Support provided by Kisco Systems LLC" with a circular arrow icon.

Open the *Major System Settings* link to access settings for:

- Servers
- Special Environment
- Alert Notifications
- FTP
- TCP/IP Address Control
- Telnet Auto-Signon Control

End of data matching selection filters.						

This on-line transaction viewer defaults to a view of 300 records, which you can change by editing the number of rows and/or the width of the screen.

When using the *Transaction Review* for testing, it is recommended that you use a low record count to avoid the possibility of web page timeouts.

Modify User Authorizations Menus

Quick View displays a matrix of all **SafeNet/i** user profiles, providing an easy method to administer users.

After you add and set up all your **SafeNet/i** users, using the specific maintenance methods, you can easily change, copy or remove users via the *Quick View* matrix.

The screenshot displays the SafeNet/i Web-Central interface. At the top, it says "SafeNet/i Web-Central" with the tagline "Enhancing System i Security!". On the right, there is a "Logout" link. The left sidebar contains a navigation menu with options: Welcome Center, Executive Overview, Major System Settings, Transaction Log, Modify User Authorizations, View Setup Reports, Special Administration Functions, and Support by Kisco. The main area is titled "Quick View of Enrolled Users" and includes a prompt: "Please select from this list of All Defined SafeNet/i Users". Below this is a table with columns for Profile, Description, and various authorization types (SRV, OBJ, SQL, FTP, CMD, IF, S, TO, D, IPA). Each cell in the table contains a green checkmark or a red X, indicating the status of the authorization for each user profile.

Profile	Description	SRV	OBJ	SQL	FTP	CMD	IF	S	TO	D	IPA
*Public	Public Users	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
BAC	User for BAC FTP temporary	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
EEL	Eileen	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
GENERAL	test sFTP user	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
GROUP1	Group Profile 1 - For Display/Test Purposes	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
IBM	User for FTP	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
JCASTILLO	Jose Castillo - Tech Support	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
MBJONES	Malcolm Jones MP Associates, Inc..	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
MJONES	Malcolm Jones	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
MJONES1	Malcolm Jones -1	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
PAYDEPT	Payroll Supervisor	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
QDIRSRV	System Directory Services Server User Profile	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
QLWISVR	Default User for all IAS Servers	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗
QSECOFR	Security Officer	✓	✓	✓	✓	✓	✓	✓	✓	✓	✗

While in the User Matrix:

- Icons will have hover-text
- Using the Copy or Delete functions in the matrix will copy or delete ALL of the specific user settings
- To copy or delete only a specific set of authorities for a user, enter the maintenance panel (Objects, SQL, FTP, for example) and select the option for Copy or Delete from there.

Special Administration Functions Menus

Display and maintain:

- **SafeNet/i Administrators**
- **SafeNet/i Super Users**
- **Swap Profiles**
- **Holiday Schedule**

The screenshot displays the SafeNet/i Web-Central interface. The top header includes the SafeNet/i logo, the text "SafeNet/i Web-Central", the tagline "Enhancing System i Security!", and a "Logout" button. A left-hand navigation menu is visible, with the "Special Administration Functions" section expanded to show "SafeNet Administrators", "Super-Users", "Swap Profiles", and "Holiday Schedule" (highlighted in red). The main content area is titled "Holiday Schedule For use with Time of Day Exclusions" and contains a table with the following data:

Date	Description
05/23/22	PowerUP
04/01/22	April Fools
07/01/22	Independence Day
Add New...	

At the bottom right of the table area are "Save" and "Cancel" buttons.
