FOR IMMEDIATE RELEASE

## **Kisco Adds Fax Capability to WebReport/400**

---

Saranac Lake, NY, March 2, 2009: **Kisco Information Systems** ([www.kisco.com](http://www.kisco.com)) today announced the immediate availability of Release 10 of their popular WebReport/400 package.

With this release, WebReport/400 can be used to send System i spool files by fax using the Internet fax service, MetroFax. This inexpensive fax service provides easy delivery of email messages by fax. Most companies will find this is cheaper than the cost of a fax phone line. No special hardware or software is needed on your i. WebReport/400 has been upgraded to format email messages from standard report spool files to work easily with the MetroFax service.

WebReport/400 includes the ability to convert spool files into Microsoft Excel format (XLS), along with other popular output formats available in earlier releases – PDF, HTML, TXT, RTF and CSV. MS Excel conversion accuracy has been greatly improved through the implementation of report models within WebReport/400 so that specific columnar data can always be captured correctly.

The new release also includes these new features:

- Improved activity logging with an activity database for more comprehensive reporting
- Improved application security with the differentiation of software users and software administrators
- New optional support for sending processing to run in batch
- Support improvements for color AFP overlays
- Improved report splitting for PDF conversions that use AFP overlays

WebReport/400 is an e-business utility that will convert System i reports to PDF, Excel or formatted text and distribute them in email or as internet/intranet content. The application offers flexible configuration and ease of use, as well as the ability to embed report distribution functionality into your existing applications. Reports can be processed manually, set up to be handled automatically using monitored output queues, or imbedded directly into applications using our standard OS command formats.

For complete, detailed information in WebReport/400 and all its features, along with case studies, screen shots and technical support announcements, please visit [www.kisco.com/webreport](http://www.kisco.com/webreport).

WebReport/400 PDF, is priced at \$1,795.00 for a single partition installation on the System i family of servers. LPAR pricing is also available. For companies with several systems, Kisco offers multiple-license discounts. Kisco Information Systems offers a free 30-day evaluation of the product that can be downloaded with complete software documentation in PDF format from [www.kisco.com](http://www.kisco.com). To obtain a free evaluation on CD call Kisco at (518) 897-5002 or e-mail [sales@kisco.com](mailto:sales@kisco.com).
